

LET YOUR LIGHT SHINE

January 6, 2016

Community Preservation Committee
Karen Connolly, Chair
Town Hall
Scituate, Ma. 02066

Dear Karen and Members of the Committee,

After careful consideration and consultation with our builder Frank Snow, we have decided that it would be more prudent for us to have the preservation assessment completed before asking CPC for any funding for a preservation project for our church. Problem areas will be prioritized by the assessment making it much more realistic to establish the areas requiring restoration and preservation work and funding.

We wish to reduce our funding request by \$50,000.00 and leave the request for \$4,000. for the cost of the preservation assessment in place.

Sincerely,

Leo D. Christian
